COMPENG CAREER CHAT - PHD SPECIAL

GHINA JEZDAN

Institute of Mechanics of Materials
"Relaxed based modelling of inelastic materials"

AMIT PAL

Research Group Mechanics of Adaptive Systems
"Application of machine learning in control theory"

IKA KURNIAWATI

Institute for Wind Engineering and Fluid Mechanics
"Full-scale measurement on large offshore wind turbine prototype to investigate Vortex-Induced Vibration"

SHARAN NURANI RAMESH

Chair of Continuum Mechanics
"Modelling and simulation of pharmaco-mechanical interactions for an improved treatment of cardiovascular diseases"

TAGIR ISKHAKOV

Institute for Structural Mechanics
"Cementitious composite materials: Material modeling across multiple scales"
